MEMORANDUM

At the March 29, 1999 Plan Commission hearing, the Commission voted to approve a rezone from Institutional (I) to Downtown Commercial (CD) to allow future development for Hirons & Company. The petitioner, Tom Hirons, requested this zoning change in order to effect the transfer of property from Indiana University, as part of the relocation of Hirons & Company to the Showers Sample building at 531 N. Morton Street.

The petitioner originally petitioned the Plan Commission in 1998 for a rezone of a former physician's medical office along the SR 45/46 Bypass from the existing Single Dwelling Residential (RS2) to Institutional (I) zoning, to construct a new corporate office at the site. This petition raised concerns from several neighbors of the Browncliff neighborhood, as well as the University, regarding the appropriateness of this rezone along an important scenic/gateway corridor. Through a private agreement between Hirons and the University, this petition was withdrawn, with the understanding that Hirons would return with a petition to rezone existing University property in the downtown area.

This petition is a followup to the agreement reached last year. The property is located in the vicinity of the 10th Street/Morton Street intersection, just north of the Showers Center City Hall. The petitioners are requesting a rezone for a total of 2.2 acres, comprising a small area of property (approximately 0.85 acres) behind the existing Indiana University Press at 601 N. Morton St., and a total of seven platted lots along the east side of North Morton Street, comprising about 1.33 acres. The objective is to change the zoning for the 0.85-acre property to enable the development of off-site, adjacent parking for the new Hirons offices at 531 N. Morton Street. The rezone for the seven lots is to complete the transaction of the property from the University to Hirons.

REZONING EVALUATION

The GPP designates the western parcel as *Indiana University* and the 7 lots along Morton Street as *Commercial*. University-designated properties are locations currently owned or identified by the University's long range master plan. In this case, the University has made a decision to sell a portion of their holdings for use by Hirons & Company as a parking lot for its employees. This use of the property is not permitted under the existing zoning, Institutional (I). Therefore, a more appropriate designation

enabling parking lots is required, which would include Downtown Commercial (CD). The area designated as **Commercial** is intended for continued development of small-scale retail and specialty opportunities, and a variety of other non-retail uses, that contribute to the consistent design theme of the Downtown. The GPP identifies this site as part of the Urban Core of Bloomington. The area is defined by an attention toward redefining and revitalizing the downtown through a combination of infill development and redevelopment of vacant or rundown structures. Given the GPP's attention to Downtown design consistency, infill development must pay special attention toward the elements of the existing downtown which are consistent and emblematic of the traditional downtown streetscape.

One of the major concerns of staff and the Plan Commission was the design of future development along the Morton Street streetscape. The petitioners shared this concern, given their desire toward revitalizing the Showers Sample building and avoiding typical strip commercial design. As a condition of rezoning approval, the petitioner agreed that a building forward design, with parking on the rear of the sites, was desired, and agreed to place such a site design limitation on the deeds for the vacant parcels along Morton Street. These restrictions are in the form of a deed recordable written commitment, attached as an exhibit.

Conditions of Approval (ZO-5-99):

- 1) Within six months of rezoning approval, the petitioner shall execute a deed-recordable written commitment for Hunters Addition Lots 9-15 (the vacant parcels along Morton Street) which shall include the following:
 - a. State that any development of these lots shall meet the parking requirements of the City of Bloomington's Downtown Development Opportunity Overlay (DDOO) as applied to the CG zoning district;
 - b. Site design shall incorporate a requirement of placing the building along the street right-of-way, with parking to the rear of the building, such that a maximum of 25% of the Morton Street frontage allow for parking fronting the street;
 - c. No parking areas shall be permitted at the corner of the Morton Street/10th Street intersection; and
 - d. All proposed buildings shall incorporate a pedestrian entrance from the Morton Street frontage.

The Plan Commission vote was 8:0 to approve.

Please feel free to call me at 349-3423 should you have questions or need additional information on this matter.

RE: Hirons Rezone

Dear Heath and Plan Commissioners:

After consultations with the planning staff regarding the Hiron's rezone, we would like to amend our petition to request that the parcels zoned Institutional be rezoned to CD. We also request that our petition be heard on March 29th with a waiver of the second hearing. We will renotify adjacent property owners to inform them of the change of our request.

Thank you for your consideration for these requests.

Sincerely,

ZONING COMMITMENT

This Commitment is being made in connection with City of Bloomington Plan Commission Case # ZO-5-99 for real estate located in Monroe County, Indiana (hereinafter "real estate"), the legal description of which is attached hereto and incorporated herein as Exhibit A, and which is commonly known as 602, 608, 610, 622, 626, 632, and 638 North Morton Street. The proposal is to rezone the real estate from I to CD and this commitment was required as a condition of Plan Commission approval. In accordance with approval by the City of Bloomington Plan Commission, **Hirons & Company("Owners")**, hereby commit to the City of Bloomington for itself, its successors and assigns, that:

Any development of these properties (as defined in the attached legal description) shall meet the parking requirements applied in the City of Bloomington's Downtown Development Opportunity Overlay (DDOO) District, as applied to the CG zoning district.

Site design for said properties shall be required to place buildings along the Morton Street right-of-way, and locate required parking to the rear of said properties. No more than 25 percent of the Morton Street right-of-way frontage of said described lots shall be fronted with parking lot areas, and no parking area will be permitted at the corner of the Morton Street intersection with 10th Street.

All proposed buildings on said properties shall incorporate a pedestrian entrance along the street frontage, in addition to any entrance from rear parking.

Recording of this Commitment is required prior to the issuance of any building permits for said real estate.

This Commitment shall be recorded in the office of the Recorder of Monroe County and shall be binding on the undersigned and upon any subsequent owner or other person acquiring an interest in the real estate.

Prior to the issuance of any permits, a copy of the recorded commitment shall be transmitted to the Planning Department.

This Commitment may be modified or terminated only by action of the City of Bloomington Plan Commission.

This Commitment shall be enforceable by the City of Bloomington or by any adjacent property owner or other interested party as defined by the Plan Commission Rules and Procedures.

Failure to honor this Commitment shall subject the person then obligated hereby to revocation of occupancy permits and other legal action including but not limited to the power of the City of Bloomington to have the work done at the expense of the property owner.

Failure to honor this commitment shall also constitute a violation of the City of Bloomington Zoning Ordinance and shall be subject to all penalties and remedies provided thereunder.
